

# The Essential Qosmos

## **NETWORK INTELLIGENCE IN TELECOMS**

- Detailed visibility over IP network traffic
- Available as DPI building blocks
- Easy integration 10's of Gbps

## Beyond Deep Packet Inspection:

# NETWORK INTELLIGENCE

- Real time parsing of network flows
- Classification of hundreds of protocols and applications
- Extraction of thousands of traffic attributes
- Visibility at the flow, session, service and subscriber levels
- Correlation between sessions (e.g. SIP and RTP correlated into VoIP monitoring)
- 10's of Gbps throughputs

### Qosmos ixEngine

- Software Development Kit
- Empower your solution with DPI / Network Intelligence within days

### Qosmos ixBoard

- Offload DPI from server CPUs
- 2x10 Gbps interface

### Qosmos ixMachine

- Passive streaming probe
- Real time extraction and delivery of traffic attributes
- Selective traffic forwarding
- Scalable up to multi-Gbps
